Dear 4-H and FFA Family,

The 2021 Fair Book is provided to assist you in preparing for this year’s Ford County Fair. It identifies the 4-H and FFA projects, which may be exhibited, their various classes, and the rules and regulations governing exhibition. Please read it thoroughly and carefully to prevent any misunderstanding or potential disappointment. The general rules and regulations at the beginning of the book and the specific regulations under each project are important.

The 4-H and FFA Divisions included in this book are designed as an educational experience for the youth involved. In 4-H and FFA, youth learn by doing. Much of the learning happens through project experiences. The county fair provides one opportunity for youth to display and tell about what they have achieved in their project(s) during the current 4-H/FFA year. A judge is hired to offer advice and constructive criticism on these achievements.

Participation and exhibiting, in the county fair, teach youth the importance of sportsmanship. Sportsmanship may be defined as conduct becoming to an individual involving fair and honest competition, courteous relations, and graceful acceptance of results. To become contributing, competent, caring, and capable adults, youth must develop sportsmanship.

Through 4-H and FFA, youth learn skills that will last a lifetime. They gain:
- A positive self-concept
- An inquiring mind
- A concern for the community
- Healthy interpersonal relationships
- Sound decision making

Each young person who has the dedication, courage, and willingness to enter a project exhibit at the county fair is a winner at heart. Because youth are our future, the county fair highlights their successes, and salutes each 4-H and FFA member!

The National 4-H Organization
Pledge
My head to clearer thinking, My heart to greater loyalty, My hands to larger service, My health to better living for my club, my community, my country and my world.

The National FFA Organization
Motto
Learning to Do, Doing to Learn, Earning to Live, Living to Serve.
ADULT CODE OF CONDUCT
These statements represent a code of ethics, which all parents, volunteers and paid staff are expected to observe.

As a Kansas 4-H/FFA Volunteer, I will:
1. Treat youth with respect, caring and acceptance. Know that all young people have skills and talents, which can be used to help others and improve their community.
2. Provide a safe environment. Do not harm youth or adults in any way, whether through sexual harassment, physical force, verbal or mental abuse, neglect, or other harmful experiences.
3. Not use alcohol or any illegal substances (or be under its influences) while working with or being responsible for youth, or allow youth to do so while in my presence.
4. Role model the character traits of trustworthiness, respect, responsibility, fairness, caring and citizenship. Model the core values of K-State Research and Extension: Integrity, to develop and deliver credible information; Communication, to provide common understanding; Scholarship, to foster lifelong learning; Leadership, to serve as an agent of change; Inclusion, to foster active participation by all.
5. Promote and practice the responsible and ethical stewardship of 4-H/FFA projects including livestock and companion animals.
6. Obey the laws of the locality, state, and nation.
7. Work as a “team player” for the good of the 4-H/FFA Program. Work cooperatively with youth, volunteers, other parents, and extension staff and treat them with respect.
8. Applaud for your children, your friends’ children, your favorite clubs or groups, and others to express appreciation and admiration.
9. Do not boo, heckle, make disparaging remarks, or make insulting comments about or to anyone—including competitors from rival clubs or groups, and program officials and organizers.
10. Listen, act interested, and be quiet when participants are introduced, when program officials are talking or making announcements, and when other comments are being addressed to the audience.
11. Remain until the end of the event or the class you are observing, or until program organizers indicate it is appropriate for spectators to depart. Do not get up and leave the minute your child leaves the show ring or stage.
12. Encourage your child to politely ask questions if he/she has them, express concerns he/she may have, and make helpful suggestions to program officials and organizers.
13. Congratulate the winners after the program.
14. If you have questions, concerns, or suggestions, be polite in expressing them. Criticize in private, and compliment in public.
15. Be considerate of the time program officials have to spend with you, and of their other responsibilities. Schedule an appointment if you need more time than they have to spend with you at the program. Submit compliments, concerns, and suggestions in writing with your signature.
16. Show courtesy toward others. For example: do not jump up and block the view of those behind you; leave the chairs and bleachers where you find them; throw away litter like programs, drinking cups, or other trash, don’t leave for someone else to clean up; or do not sit or stand in aisles.
17. Teach your child sportsmanship. Require him/her to demonstrate sportsmanship before, during, and following competitive activities.
18. Enjoy the program, and accept our appreciation for setting a good example for today’s youth.
GENERAL RULES & REGULATIONS FOR 4-H/FFA

The following rules are prescribed by the Ford County Fair Association and Ford County Extension for the operation of the Ford County Fair. They reserve the right to interpret these rules and regulations and arbitrarily settle all questions arising in connection with the fair.

1. Judge’s decision will be final.
2. Failure to comply with any rule in this book will result in disqualification of that project per Fair Association discretion.
3. Management is not responsible for accidents, fire, or theft of exhibits or injuries to persons. Exhibits will be displayed at the owner’s risk. All exhibitors must sign a release of liability form prior to fair.
4. Only members enrolled in 4-H Clubs in Ford County may compete in 4-H classes, unless division rules state FFA enrolled in Ford County. FFA members must follow 4-H/FFA age requirements prior to January 1 of the current year.
5. Fair Pre-entries are due by 5:00 p.m. Thursday, July 1 through the Fair Entry program. Pre-entries are required for all 4-H Exhibits for the 2021 County Fair. NO LATE ENTRIES WILL BE ACCEPTED. This includes all livestock and non-livestock projects as well as club entries, such as booths and banners. Identifying exact exhibitor for livestock entries must be done by pre-entry deadline.
6. With the exception of livestock, contestants will be divided into the age groups (Juniors) 7-9-year-olds, (Intermediates) 10-13-year-olds, and (Seniors) 14 & older based on 4-H/FFA age.
7. When completing pre-entry, 4-H class numbers must contain the class number and a letter if classes are not already specific to member’s age and exhibit judging is based by age group and the exhibit. Letters will be as follows:

   B. 4-H member age 10-13-year-olds
   C. 4-H member age 14 and older

8. Club entries are to be done by community club leaders not individual members.
9. Each member will be allowed one free pass for an entry that was not pre-entered. If the member chooses to enter an exhibit using this free pass, they will not be allowed to receive a ribbon rating higher than a blue ribbon. Free passes may not be transferred to another 4-H'er. Please use your free pass wisely. If you used it on an inside exhibit you will not be allowed to use it later on an outside exhibit that you may have missed pre-entering. The member will need to come by the fair office to obtain an entry card.
10. Free passes are only for exhibits in projects enrolled in. 4-H members may display only in classes pertaining to the projects and phases in which they are enrolled. 4-H'ers may not exhibit in Open Class Division, unless division rules state otherwise.
11. CLUB MEMBERS ARE LIMITED TO ONE ENTRY PER CLASS, UNLESS THE DIVISION RULES STATE OTHERWISE.
12. All exhibits must be the handiwork of the exhibitor; the grower, where agricultural exhibits are shown; and the owner and feeder, where livestock is entered. Exhibits must be the result of the 2020-2021 club years’ work, unless the division rules state otherwise.
13. All complaints about eligibility of exhibits must be submitted in writing to the Fair Board, 100 Gunsmoke, Dodge City, before the exhibit is judged. Complainant must sign complaint. Complaints received after judging will be taken into consideration when writing next years’ fair rules.
14. All poultry must be tested for Pullorum and Typhoid to be eligible to show.
15. Self-determined 4-H projects may be entered in the fair. County Extension agents will determine which division each self-determined project will be entered in.
16. For State Fair exhibiting, the 4-H/FFA members must be 9 years of age or older (4-H/FFA age) and have a blue-ribbon or higher rating.
17. All 4-H general project exhibits must be entered by 12:00 Noon Thursday, July 22. 18. All cash premium recipients must write a thank you note and submit it to the Office.

19. Bicycles, scooters, roller blades, skateboards, or any type of roller shoes will not be allowed on the fairgrounds.

20. All 4-H and FFA members are expected to dress appropriately while on the fairgrounds. The fairboard and extension staff will not be policing what is worn. Parents are responsible for making sure appropriate dress (Example is closed toe shoes, jeans and collared button-up shirt or 4-H t-shirt) and behavior are followed.

21. All 4-H general project exhibits (including poultry) will be released between 7:00 p.m. and 10:00 p.m. Monday, July 26. Remaining exhibits may be picked up between 8:00-9:00 a.m. on Tuesday, July 27. Any exhibit that is removed from the fairgrounds before this time will forfeit any premium that exhibitor might receive unless division rules state otherwise.

22. The Ford County Extension Council staff will make every effort to transport 4-H/FFA exhibits to the State Fair in September. Due to limited space, those desiring to exhibit bulky items and livestock must transport their own exhibits.

23. Copyright Laws: Exhibitors should avoid using copyrighted materials whenever possible by originating his/her own work. Exhibitors should use with caution a copyrighted and/or trademarked product or service (a brand name, label, or product). The intent of using the copyright or trademark materials for educational purposes such as an exhibit, educational poster/display, or public presentation is acceptable under the “Fair Use” (legal use) provision. “Fair Use” is a provision of the current copyright law that allows reproduction without payment or permission of limited portions of a copyrighted work for educational and other public interest purposes. Regardless of the “Fair Use” provision, the inference that a specific name brand product is good or bad inherently or through comparison must be done cautiously, using acceptable research/comparison methods and have a disclaimer that the conclusions are those of the participant and not those of K-State Research and Extension. A copyright and trademark are legal methods used by writers, artists, corporations and others to protect their original work. Protected items may range from books to music, logos to computer graphics. Copyrighted and/or trademarked materials used in banners, displays, demonstrations, posters or other activities for endorsement or promotion instead of educational purposes will be disqualified and will not be displayed or receive ribbons or premium. The use and inclusion of specific brand names for educational purposes does not imply endorsement or refusal by the Department of 4-H Youth Development, Kansas State University Agriculture Experiment Station and Cooperative Extension Service or the State of Kansas.
1. The Danish System will be used to evaluate 4-H exhibits. This system distinguishes between excellent, good, and fair exhibits and awards a Blue, Red, and White award respectively. Ratings will be assigned on an individual basis according to project quality. A single entry in a class does not ensure a blue award.

2. Class champion will be recognized in every class judged; providing the entry is blue ribbon class champion quality. Grand Champion in every project will be recognized; providing the exhibit is of blue-ribbon grand champion quality.

3. Placing stickers may be used in some divisions. If 4-H’er would like a ribbon instead of the sticker, they may pick one up at the fair office at the end of the fair.

4. Judges' fees, ribbons, fair supplies, booth premiums, and open class premiums are paid first. Money remaining will be used to pay 4-H/FFA premiums.

5. Premiums will be paid in late August or September.

6. The 4-H Cloverbud program is designed as an exploratory experience and not a competitive one. All Cloverbud participants will receive a participation ribbon. Cloverbud members do not receive premium monies.

7. Premium money will be distributed to 4-H/FFA members on a point system. Each purple ribbon exhibit will receive seven (7) points, blue ribbon exhibit will receive five (5) points, each red ribbon exhibit will receive three (3) points, and each white ribbon exhibit will receive one (1) point. Premium money will be pro-rated based on the total number of points earned by the 4-H/FFA exhibitor. Should an exhibitor fail to have enough money to earn a premium of $3.00, the individual will be compensated so that a premium of $3.00 will be paid. In other words, no eligible exhibitor will receive less than $3.00 total premium.

8. EXAMPLES: 1 point is worth 50 cents
Chris Clover received:
1 purple award (1 x 7 = 7 points) 7 x 50 cents = $ 3.50
2 blue awards (2 x 5 = 10 points) 10 x 50 cents = $ 5.00
1 red award (1 x 3 = 3 points) 3 x 50 cents = $ 1.50
1 white award (1 x 1 = 1 point) 1 x 50 cents = $ 0.50
Total premium = $10.50

EXAMPLE: A club member may sell one calf and one pig, or one calf and one lamb, or one pig and one lamb. 4-H LIVESTOCK SALE POLICY

Premium Sale: Exhibitors are allowed to sell a maximum of two items (example - 1 food and 1 animal or 2 animals of different species) in the premium sale. Animals going through the sale must have met the fair market weight requirements and have been shown in the market class. Sale Agreements and Animals Drug Certification paperwork must be completed by the required deadlines. These animals will then be sold on a premium basis. 4-H members are encouraged to contact and invite buyers to the Premium Sale.

If the buyer only wants to pay the premium on the animal/4-H, they will need to pay the Ford County Fair Association the premium amount as determined by the auctioneer and the animal will be loaded on the truck to be shipped with the rest of the market animals. If the buyer chooses to keep the animal for slaughter for their own use, they will be required to pay the Ford County Fair Association for both the premium and market price of the animal. The Ford County Fair Association will issue checks to the 4-H member.

Other animals (including lightweights) can be sent to market as long as the required paperwork has been completed and the market buyer agrees to take them. The exhibitor will receive the market price for the animal. The Ford County Fair Premium Sale is a terminal sale.

Terminal Sale: This is a terminal sale for market beef, market sheep, market swine, and meat goats. All animals must be either turned back to the floor buyer or used for home consumption. They may not be taken home by either the buyer or the seller. Sale of animals going through the sale is final, and animals are ineligible for exhibiting at any future show. Exhibitors will have the opportunity to ask questions and complete the required paperwork at the Exhibitor meeting that will be held on Thursday evening of the Fair.

Each exhibitor is required to identify each box with two identification labels bearing Exhibitor’s name, county, or district, the collection class 4-H’er is enrolled in and statement of taxonomy used. One label goes in the upper left corner of the box (inside) and the other on the lower right corner of the box (outside). Arrange specimens in the box so the box can be displayed lengthwise.
4. The number of orders, specimens (and families where required) must be included on both of the exhibitor’s box identification labels. Only 1 adult insect per species can be used in the Collections Boxes and Notebook Classes, unless labeled as male or female and correctly identified.
5. Arrangement of specimens: The preferred method is to arrange the insects in groups or rows parallel to the short sides of the box. Specimens are to be arranged by Order in the box, then Family where required.

35
6. Two labels should be centered on the pin beneath each specimen. First (closest to the specimen) is the common name label and the second label should include date/locality. Full county name and state abbreviation should be on the second label. Collector’s name (or host) on the date/locality label is optional.
7. The specimens should be collected by the exhibitor and should focus on Kansas insects. Insects may be collected from one county into bordering states and labeled accordingly. Please refer to “Entomology Collection Exhibit Resource” for full details on out-of-state insects in collections.
8. Only specimens of the class Insects should be included.
9. Purchased insects are not to be exhibited in collections, but they may be used in educational displays.
10. Specimens of soft-bodied insects such as aphids, lice, termites, etc. should be exhibited in alcohol-filled vials; however, the use of alcohol-filled vials should be limited to only those specimens that lose their shape when pinned, since the vials pose a significant hazard to the rest of the collection if they become loose in transit.

Attach paper to the back of one of the display boxes. Members may continue to exhibit in this class at the Kansas State Fair for an unrestricted number of years as long as they remain eligible.

Notebook Classes
1. Individual entries are to be placed for display in a three-ring notebook for competition.
2. 4-Hers may choose to use one of two taxonomies:

   b. as printed on the “Insects in Kansas Book: 2016 Revised Taxonomy”, which follows www.bugguide.net
3. 4-Hers who have been previously enrolled in or are currently enrolled in the other phases of the Entomology project need to start with the Beginning Phase of Entomology Notebooks, not the introductory phase.
4. Each exhibitor is required to identify the notebook by placing a Title Page in the front of the notebook bearing the exhibitors name, county or district and class 4-H’er is enrolled in and statement of taxonomy used:

7. Specimen pages should have two different views of the insect if possible. If pictures are taken on different dates/localities, include information for both.
8. A statement describing the habitat where found/host plant may be included, is encouraged, and will be worth a bonus 10 points total, not per page. For Intermediate and Advanced notebooks, this is strongly encouraged.
9. A divider page is to be placed in front of each order of insects with the order name printed on the tab for the page as well on the front of the divider page.
10. For the Intermediate and Advanced classes, insects are also to be grouped by family behind each order divider.
11. If the exhibitor has been in the same class for more than one year, a separate sheet of paper needs to be added stating how many years the exhibitor has been in this class of the project and what the exhibitor did this year to improve their notebook. Place the paper just behind the Title Page in the front of the notebook.

Fiber Arts is defined as any method of creating a unique design with fiber, fabric, or yarn. This may include making fabric (such as weaving, crochet, knitting, or needlepoint) or when existing fabric is changed into something quite different (such as a quilling or embroidery or ethnic art.) 1. Exhibitor will be limited to 3 items per class.
2. Articles must have Identification Label. Type or print on 3”x2½ “piece of cloth: class number, county, and exhibitor’s name. Sew or safety pin this ID label on the corner of flat articles; for garments, attach ID label to the front left shoulder seam, or left side of waistband, as if you were wearing the garment.
3. When articles which are normally worn as a pair are exhibited, both articles must be shown together. Fasten articles together securely with yarn.
4. Special consideration will be given to articles that are of original design. Such articles should have a note attached explaining the original design.
5. The exhibitor should attach an index card, no larger than 4”x6”, with the entry form to give the judge any information on what parts of the exhibit they made, processes used, or other information that the exhibitor thinks would be helpful for the judge. For all items, please indicate if item was made from a kit. For all items please indicate fiber content, and specifically if they are made of at least 90% wool. For quilted items, indicate who did the quilting and binding.
6. Exhibitors are expected to be enrolled in the Fiber Art project in which they are entered. When the exhibit is a sewn garment that also includes one or more Fiber Art techniques (i.e. knitting, crochet, needle arts, or patchwork and quilting), the determination of what division (Clothing or Fiber Arts), and class in which to enter will be left with the 4-H participant.
7. All exhibits, which need to be hung, MUST have the appropriate saw tooth hanger, rod, wire or other mechanism attached in order to be properly displayed. If necessary hardware is not attached, it may not be displayed.

8. Members participating in style review may model only one constructed outfit or garment, and one buyanship outfit or garment. 4-H’ers enrolled in knitting may style a knitted garment. 4-H’ers enrolled in crocheting may style a crocheted garment.

The notebook should include a narrative section describing the fiber art. It should include a clear description of the project, technique, budget, supplies, goals, accomplishments, successes, failures, and plans. It may include samples of techniques, how-to’s, photographs of completed projects, or other ways of educating others about fiber arts. NOTE: a collection of brochures, web pages, patterns, record book forms, etc. does not constitute an educational notebook. Name, county, and fiber art covered must be clearly marked in the notebook.

DEPARTMENT 22: GEOLOGY

1. The exhibit box should be 18” x 24” x 3½”. Plexiglas covers are required. Boxes with glass covers WILL NOT be accepted. All specimens are to be arranged across the narrow (18”) dimension of the exhibit box, making the exhibit 18” across the top and 24” deep exactly. If a box has a sliding Plexiglas cover, it must be removable from the top. Screws, locks, or other devices that would prevent judges from removing the cover should not be used. For Lapidary classes 2201-2211 only, the dimensions of the box should be appropriate for the display, but should not exceed 18”x24”x3½”.

2. Each exhibitor is required to identify each display box by placing an identification label bearing name, county or district, and number of specimens in the upper left-hand corner of the Plexiglas cover (inside-use clear double-sided tape to adhere gummed labels), and by attaching a label with the same information on the lower right corner of the box (outside).

3. Exhibitor may enter in both geology and lapidary classes. Exhibitor may show in only one of these four geology classes (2201, 2202, 2203, or 2204). Exhibitor may also show in geology class 2205 (special exhibit), 2206 Mineralogy, and in one lapidary class.

4. Geology specimens should be labeled with the number of the specimen, date collected, specimen name or description, and locality (county only) where collected.

5. For geology classes 2201, 2202, 2003, and 2204, 2206 and 2207 all specimens must be collected (not purchased) from locations in Kansas, with the exception of Tri-State Mining Area specimens collected from these three adjacent counties: Ottawa County, OK, Newton, and Jasper Counties, MO. Other out of state specimens will not count in the minimum number for the class, nor will they be considered in the judging.
6. For the geology classes 2201, 2202, 2203, 2204, 2206 and 2207 specimens should be mounted in the box by proper groups: rocks, minerals, fossils. Fossils must be identified to the Phylum, Class, and Genus level. Genus name is to begin with a capital letter. Species name is all lower case. Genus and species names must either be italicized or underlined, not both. The words “phylum, class, genus” on labels are to be spelled out, not abbreviated. More than one specimen of the same kind of rock or mineral or species of a fossil may be exhibited if this duplication represents different geological formations. Specimen label must show this distinction (Fort Hays limestone, not just limestone; calcite from the Greenhorn Formation, not just calcite; Phylum: Brachiopoda Class: Articulata Genus: Composita from the Morrill Limestone Member, not just Phylum: Brachiopoda Class: Articulata Genus: Composita).

1. Collect, identify, press, mount and label a minimum of 15 weeds.  
   Try to include their roots, stems, leaves and flowers. Three of the weeds must be noxious weeds preferably found in Ford County. A standard 9”x12” scrapbook may be obtained in which to permanently mount your weed specimens.  
2. Prepare a list of the weeds mounted, showing common name, scientific name and where it was found. Place the list in a specially identified section of the scrapbook.  
3. Collect and identify weed seeds found in crop seeds. Mount them for display purposes. Place them in a specially identified section of the scrapbook.  
4. Write a story on “How We Control Weeds on Our Farm” if you live on a farm. Other members write “How We Control Weeds at Home.” The story should be about 300 words in length. It must show definite methods used to control weeds. Place the story in a specially identified section of the scrapbook.  

**DIVISION 4: WEED CONTROL**

Architectural Block Construction
This STEM exhibit area is starting with an emphasis on using architectural blocks to construct dioramas, allowing youth to explore architectural design in 3-D space. The intent is for this program to start with foundational ideas of architecture, some of which youth may already have and allow the youth to continue to build on this knowledge becoming more and more experienced.

1. The 4-H member must be currently enrolled in the Kansas 4-H STEM – Architectural Block Construction project to exhibit in this division.
2. Each exhibitor may enter one exhibit per class. Exhibit must have been constructed or repaired during the current 4-H year. The exhibit must be selected Grand Champion at the County Fair for entry at the State Fair.
3. Total exhibit dimensions may not exceed 2 feet high, by 2 feet wide, by 2 feet deep.
4. All exhibits should be placed in a sturdy see through enclosure with a top, bottom and 4 sides. A fish tank would be an acceptable enclosure. This is to keep exhibit parts from being “scattered to parts unknown” at the Fair. The outer dimensions of the enclosure are part of the total exhibit dimensions.
5. All components used in construction should be dust free, clean, free of chips, scuffs or cracks.
6. The primary building components should be interlocking blocks, commonly referred to by the brand name of Lego®.
7. Other architectural components can be integrated in dioramas to illustrate architectural aspects that may be difficult to convey with traditional interlocking blocks.
8. The use of existing “store bought” sets for major architectural elements of the display is not allowed, use of figurines from sets is allowed as are using individual bricks to create something different than the architectural component of the set it came from.
9. Displays must have significant architectural components (walls, windows, doors, roofs, canopies, flying buttressed, etc.) landscapes are discouraged.
10. Architectural elements should have a consistent look, walls with no pattern or consistency will be deducted one ribbon placing.
11. Gaps or cracks should not be visible between assembled blocks.
12. Doors should open and close, windows can be either fixed or open and close.
13. Vehicles that are intended to stay in a single place should be affixed to base plates with sticky tack, hot glue or other method.
14. Reveals that show the inside of a structure are acceptable, such as only having three walls to allow an unobstructed view into a room.
15. Mechanical enhancements or motion elements that add motion to the diorama are acceptable and encouraged. If used judges should be able to use them and instructions should be provided for operation.
16. Artistic design with no architectural design/components is not permitted and two ribbon placings will be deducted.

17. Each exhibitor is required to complete the “4-H STEM Architectural Block Construction Exhibit Information Form”, which is available at www.STEM4KS.com or at the Ford County Extension Office. This form must be attached to the outside of a 10”x13” manila envelope. **DO NOT TIE** the envelope to the exhibit. Each exhibit information packet should include:
   a. At least one drawing of the desired architecture on graph paper, multiple views (top, front, side) are preferred;
   b. 1 to 5 pages of showing work on the exhibit, preferably from a beginning state to final or completed state;
   c. If appropriate, operating instructions for mechanical portions of the diorama.

18. Additionally, exhibitors are required to create a video about their project, discussing their construction experiences and the architectural elements of the diorama. This allows judges to get a better understanding of the exhibit and allows the youth the opportunity to fully explain their exhibit. The videos should be no longer than 8 minutes and should be placed on a USB drive.

5. Each telescope exhibit must include a “4-H Astronomy Exhibit Information Form,” which should be attached to the outside of a 10” x 13” manila envelope. You must also include construction plans (or a photocopy) of the telescope and place it inside the manila envelope. For notebooks, display boards, and posters, no additional exhibit information is required; no manila envelope is needed for these exhibits.
6. See the last section for full details about exhibiting posters, display boards, and notebooks.

DIVISION 3: ASTRONOMY

Class 2750 Telescope – made from kit
Class 2751 Telescope – made from original design

Computer

The Kansas 4-H STEM Computer Systems portion of the computer project is designed to allow 4-H members to explore how information is moved from one part of the computer to the other; how information is stored; or how information is acted on (programming).

1. The 4-H computer project teaches concepts related to computers, hardware knowledge, software programming and applications, internet safety, the building, maintenance and repair of computers and future career opportunities. Please note that the actual construction of computer hardware (i.e., building a computer, electronic devices with a motherboard-based manipulation) will remain in the Energy Management division.

2. The 4-H members must be currently enrolled in the 4-H STEM – Computers project to exhibit in this division.

3. Each exhibitor may enter one exhibit per class. Exhibit must have been completed during the current 4-H year. Exhibitor’s name, county or district, 4-H age, and year(s) in project must be tagged or labeled in a prominent location on the exhibit, educational display, notebook, and/or poster.

4. See the last section for full details about exhibiting posters, display boards, and notebooks.

5. If the judge, superintendent, or other staff note a safety violation, the exhibitor’s exhibit, at the judges’ discretion, will receive a participation ribbon.

6. All exhibits must be:
   a. Self-contained on a USB drive (thumb drive, flash drive, jump drive or other, any other name for a small USB storage device). This means that a judge can plug in the USB drive into a computer and be able to run the exhibit as described below. OR
   b. System-on-a-Chip (SOC) (such as Raspberry Pi) or a Micro-Controller (such as an Arduino or Ozobot) AND is a compact (less than 8”x8”x8”) system, which can be programmed AND requires minimal assembly to operate (e.g. connecting power, display, and keyboard/mouse cables). Referred to as a “chip system” through the rest of the rules.

7. All revisions of all forms previously released for the STEM division either undated or dated prior to current year are void for use and new forms must be obtained and used that are dated by the Kansas State 4-H Office for the current year. Use of old forms will result in the loss of 1 ribbon placing for exhibit.

8. Physical computers such as tablets, smart phones, laptops, or personal computers (PCs) will not be accepted as an exhibit.
9. “Chip System” may use/include GPIO bread boards or HATs (Hardware Attached On Top) the size of which is not included in the size of the chip system, however the total size of the chip system and GPIO devices may not exceed 24”x24”x24” including any protective enclosures.

10. Any attached GPIO devices are not judged for electrical construction or quality as this division is focused on the operational aspects of the system that have automated articulated structures (arms, wheels, grippers, etc.) which the exhibitor constructed, can also be classified as a robot, and the exhibitor must decide which division to exhibit in as the exhibit may not be entered in both divisions.

11. For Chip System, all electric components of the system must be adequately covered or concealed with a protective enclosure. Paper is NOT considered an adequate enclosure or covering for the electric components.

12. For all computer system entries, the following items are required as part of an exhibit packet:
   a. A manila envelope with the Computer Exhibit Form attached to the front, this form can be downloaded at www.STEM4KS.com.
   b. A USB drive labeled with the 4-H’ers name, county, and club; in a way that does not prevent it from being plugged into a computer.
   c. For exhibits that are entered on USB drives, at least one (1) graphic (picture, screen shot/capture, slide, etc.) of the project must be printed out on 8.5”x11” sheet of standard computer paper, placed in a plastic sheet protector, to allow for proper display and recognition at the Kansas State Fair. This will be displayed during the Ford County Fair; all other materials will be sent back with exhibit or after judging.
   d. Instruction to run any part of the exhibit on the USB drive.
13. Each exhibit must be accompanied by a “4-H Engineer’s Journal.” The engineer’s journal should be typed. It can either be included electronically on the USB drive (preferred) or printed and placed in the manila envelope.
   a. The “4-H Engineer’s Journal” should start with dated entry describing what the 4-H member is trying to accomplish/build.
   b. The “4-H Engineer’s Journal” should conclude with a dated entry describing what the 4-H member achieved in creating. (The start and end many times will be different. The judges are interested in the journey.)
   c. Additional entries in the “4-H Engineer’s Journal” should be made as progress occurs describing successes and failures; as well as the steps done and any sources of information including links used.
   d. Pictures can also be included in the 4-H Engineer’s Journal” but should not be more than 50% of the entries.
   e. The “4-H Engineer’s Journal” should contain at least one graphic.
   f. The 4-H Engineer’s Journal” must be at least 3 pages in length.
   g. An example of a 4-H Engineer’s Journal” can be found at www.STEM4KS.com.
   h. The “4-H Engineer’s Journal” will comprise 50% of the overall exhibit score. Failure to include a “4-H Engineer’s Journal” will result in the exhibit being disqualified.
14. If the exhibit is a program, application, app, web site, or requires any coding, the source code must be included on the USB drive. Failure to include a copy of the “source code” may result in up to one ribbon place deduction.
15. Diagrams or decision trees showing the logical flow of the system must be included on the USB drive for all exhibits.
16. 4-H’ers are recommended to bring a computer that will run their project to the Ford County Fair for judging as judges typically don’t bring computers with them. Operating instruction are still required.
17. Instructions should be written as though you were helping a less techy person, use the USB drive with a computer similar to what is described in Rule 14. An example of instructions can be found at www.STEM4KS.com.
18. Each exhibit MUST include a video of the youth following their instructions for operation. This allows judges to get a better understanding of the exhibit and allows the youth the opportunity to fully demonstrate their exhibit. The video should be no longer than 8 minutes and should be placed on the USB drive.

19. Each exhibit must accomplish a specific automated task using a computer, a chip system, or virtual machine (VM).

20. The STEM judges at the Ford County Fair will have internet access. Internet based content may be included in exhibits. Exhibitors should take great care and only go online with their guardian’s permission. User names and passwords should not be included in exhibits. If they are required to view the content, a temporary user account and password should be created for judging at the Ford County Fair, once judging is complete the user name and password should be disabled on the account. If separate user account is not possible, the content should be included as part of the video. YOU SHOULD NOT SHARE YOUR USER NAME OR PASSWORD WITH OTHERS.

21. Kansas 4-H STEM has made available Linux Virtual Machines (VM) that can be downloaded and used to create projects on such as web servers, networking and other projects. For more information on how these VMs can be leveraged or to download them visit www.STEM4KS.com. 4-Hers are not required to use the VMs in their projects. They are optional.

22. All licensing should be adhered to for any software used in the exhibit. Failure to do so will result in a reduction of one ribbon placing and may not be considered for Grand Champion awards.

23. The creation of viruses, malware, malicious applications or code, defamatory language or graphics, bullying or any material that is “mean,” “dangerous,” or harmful according to the judge’s opinion, will result in exhibit being disqualified.

24. Pictures or still graphics created are not eligible for entry as a project in this division and should be entered in the appropriate photography division.

25. Judging will be based on a score sheet which can be found at www.STEM4KS.com. There are 4 areas each exhibit will be judged on. They are:
   a. 4-H Engineers Journal – 50% overall score
   b. Instructions – 25% overall score
   c. Functionality – 12% overall score
   d. Diagrams and Code (if applicable) 13% overall score

26. Classes will be divided in to Jr., Inter., and Sr. When completing pre-entry, 4-H class numbers must contain the class number and a letter if classes are not already specific to member’s age and exhibit judging is based by age group and the exhibit. Letters will be as follows:

The Kansas 4-H STEM - Rocketry program is designed to allow 4-H members to explore aerospace through rockets of various sizes. Kansas 4-H has adopted the National Association of Rocketry’s rules, regulations, and safety guidelines. These rules apply to how rockets are to be displayed at the fair and what those displays should and should not contain. These rules apply to all rockets displayed in the STEM Division.

Exhibit Information for ALL rocketry categories:

1. 4-H members must be currently enrolled in the 4-H Rocketry Program to exhibit in this division.
2. All rockets displayed in this division must be constructed during the current 4-H year.
4. Each exhibitor may enter up to 2 rocket exhibits that have been constructed during the current year. If 2 rockets are entered, 1 rocket must be a “model rocket kit” or the second may be entered into any other applicable class. An exhibitor may not enter 2 rockets in the same class.

5. 4-Hers are to complete and sign the rocketry information form, available from www.STEM4KS.com or at the Extension Office, and attach it to a 10”x13” manila envelope. The envelope should contain:
   a. Instructions on how to construct the rocket.
   b. Up to 5 pages of pictures from both construction and launch.
   c. Documentation of any flight damage that occurred.
   d. Any modifications made to the rocket.
   e. An additional page for altitude calculations if the space on the form is not enough.
   f. Additionally, for original design rockets, also known as “scratch built” rockets:
      i. 5 additional pages of photos are allowed.
      ii. Documentation of how the rocket was tested for stability.
6. If a safety violation is noted by the judges, superintendent, or other staff, the exhibitor’s rocket, at the judge’s discretion, will receive a participation ribbon.
7. Rockets are to be displayed upright on a display stand with a sturdy rod that does not extend past the top of the rocket or stand unassisted, unless the rocket is taller than 4 feet in which case no display stand is required and rocket may be displayed on its side. rockets are not to be displayed on launch pads to save space and prevent someone from being poked in the eye.
8. Rockets ARE NOT to be displayed with used or unused rocket engines either in the rocket or as part of the stand, if rocket engines are included in the exhibit the judge may disqualify the exhibit.
9. Rockets should be flown, unless there is an active burn ban in Ford County or conditions are too dangerous to safely launch the rocket. Just flying the last stage (the part with the nose cone) of a multi-stage rocket is acceptable.
10. All rockets, except those in the Junior Divisions, are not to be “beginner kits” or use prefabricated fin assemblies or pre-finished rockets requiring no painting, these are not acceptable outside the Junior Divisions, and should be disqualified.
11. Angles of fins must fall within a plus or minus 2-degree variation using an approved fin alignment guide (such as KSSTAC 10). An official fin guide is available from www.STEM4KS.com.
12. Fins and body tubes, except those in the except those in the introductory divisions, are to be filled and sealed with sanding sealer and/or primer or other suitable filler to eliminate the appearance of body grooves and wood grain. Fins and launch lugs are to be filleted to reduce drag and properly secure them to the model. Engine mounts are to be securely attached to the body tube. Any seams on plastic parts are to be sanded smooth. The recovery system (typically a parachute or streamer) should be attached according to instructions. The nose cone is to fit snugly but still allow for easy removal.
13. Exhibits must be uniformly painted and smoothly finished or finished as per rocket instructions, and have decals applied smoothly.
14. Models may not be judged based on their paint scheme (colors and placement on the rocket), with the exception of rockets that fit the definition of a “scale model**”. All other rockets do not have to follow the suggested paint scheme, allowing the 4-H'er to display maximum creativity in the finishing of their rocket. Under no circumstances is the weight given to the paint scheme to be sufficient enough, by itself, to move the model from 1 ribbon placing to another.

15. “Scale models**” may be judged based on their paint scheme. The judge may deduct up to 1 ribbon placing for not following the paint scheme. “Scale models**” rockets are to be finished and completed with a majority (greater than 70%) of decals. For all other rockets, the use of decals is optional.

16. Original design rockets cannot be modification of a pre-existing kit and must be of original design. Original design rockets must be designed by the exhibitor(s). Exhibitor(s) must be 11 years of age (4-H age) or older to enter an original design rocket. Original design rockets must include detailed instructions, so that someone could construct the original designed rocket just like a kit purchased at a store. Instructions can be as many pages as needed to convey full and complete construction techniques. For a rocket entered in the original design classes, describe in the summary how the rocket was tested for stability prior to flying. Swing testing of the rocket is required. Other tests and calculations are encouraged. Exhibitors must include documentation of the swing test. Failure to swing test a rocket will result in a deduction of 2 ribbon placings.

17. A minimum of 1 additional page must be added to the rocketry information packet detailing the test(s) performed to insure stability. 4-H'er’s are strongly encouraged to provide as much detail as possible. Failure to provide adequate written documentation will result in a disqualification.

18. Rockets that use more than 1 ‘D’ engine or equivalent are considered mid- or high-power rockets in 4-H.

19. Mid- and High-Power exhibitors must be at least 14 years of age by January 1 of the current year.

20. In addition to the information packet completed for all rockets, a high-power information form is to be completed and placed inside of the information packet. This may be downloaded from www.STEM4KS.com.

21. Exhibitors in the mid and high divisions must hold memberships in either NAR or Tripoli organizations.

22. The NAR High Power Rocket Safety Code applies to the construction and launching of all rockets displayed in this division. As such all mid- and high-power exhibitors must comply with the NAR High Power Rocket Safety Code that is in effect as of October 1st of the current year.

23. All rockets in the mid and high-power divisions are to be launched under adult supervision by the 4-H member who constructed the rocket.

24. For rockets launched using an engine(s) that have 160.1 (‘H’ engine or equivalent amount of smaller engines) Newton’s-seconds or larger, adult supervision must be provided by an individual having at least a level 1 high power certification. The 4-H member should also hold or be attempting to attain their level 1 high power certification if launching on this large of an engine.

As defined by the National Association of Rocketry (NAR), a scale model is “any model rocket that is a true scale model of an existing or historical guided missile, rocket vehicle or space vehicle.” The intent of scale modeling is, according to the NAR, “to produce an accurate, flying replica of a real rocket vehicle that exhibits maximum craftsmanship in construction, finish and flight performance.” (NAR “Pink Book” 50.1 4-1)

**Unmanned Aerial Systems**
The 4-H unmanned aerial systems or UAS project explores the world from above the trees and discovers new frontiers with UASs. UASs are commonly known as Unmanned Aerial Vehicles (UAVs) or drones. Members explore the uses and applications of unmanned aerial systems including how UASs link to other projects such as geology, robotics, electronics, crop science and many more.

1. The 4-H members must be currently enrolled in the 4-H STEM Systems project to exhibit in this division.
2. Each exhibitor may enter one exhibit per class. Exhibit must have been completed during the current 4-H year and selected Grand Champion at County Fair.
3. The information that accompanies the UAS must be limited to the 4-H STEM Exhibit Information Form that is affixed to a 10” x 13” envelope. This envelope should NOT be attached to the UAS. This may be downloaded from www.STEM4KS.com. Any UAS exhibit not including this completed envelope will receive an automatic participation ribbon.
4. Each exhibit MUST include a video of youth operating their UAS. This allows judges to get a better understanding of the exhibit and allows the youth the opportunity to fully demonstrate their exhibit. The video should be no longer than 8 minutes and should be placed on CD, DVD, USB drive or similar.
5. Exhibitor’s name, county or district, age, and years(s) in project must be tagged or labeled in a prominent location on the exhibit, educational display, notebook, and/or poster.
6. Unmanned Aerial Systems that include or depict weaponry of any kind will be disqualified.
7. See the last section for full details about exhibiting posters, display boards, and notebooks.
8. If modifications are made to the exhibit, a page should be attached noting those modifications.
9. If the judges, superintendent, or other staff note a safety violation, the exhibitor’s exhibit, at the judges’ discretion, will receive a participation ribbon.
DIVISION 7: UNMANNED AERIAL SYSTEMS

LEVEL 1: Intermediates - 9-13-Year-Olds

Class 27000  Unmanned Aerial System Operated by Remote Controlled Device - designed and constructed by exhibitor (The UAS must not be a mere modification of an existing kit or plan. You may not exhibit a UAS that is purchased off the shelf in this class.

Class 27001  Practical Application of Unmanned Aerial System- constructed from a commercial kit (This includes the UAS, plus one or more of the following: video, notebook, poster, display board, etc. This class is separate from educational exhibits. A tangible use would be mapping Russian olive trees, eroded soils, and bindweed in fields, etc. There are also many other non-agricultural UAS uses that would be appropriate for this class.)

LEVEL 2: Seniors - 14 Years & Older

Class 27003  Practical Application of Unmanned Aerial System- constructed from a commercial kit (This includes the UAS, plus one or more of the following: video, notebook, poster, display board, etc. This class is separate from educational exhibits. A tangible use would be mapping Russian olive trees, eroded soils, and bindweed in fields, etc. There are also many other non-agricultural UAS uses that would be appropriate for this class.)

STEM - Educational Exhibits

Posters, Notebooks and Display Boards

Allows 4-Hers to explore STEM outside the bounds of traditional projects for rockets, robotics, astronomy, computers, and unmanned aerial systems. All posters, notebooks, and display boards are listed in this section and have been removed from the individual sections to save space.

1. The General Exhibit rules for ALL categories apply.
2. For notebooks, display boards, and posters, no additional exhibit information is required; no manila envelope is needed for these exhibits.
3. Exhibits in posters, notebooks, and display boards must contain substantial supporting educational materials.
4. Educational display boards, posters, and notebooks should be creative and display details about the knowledge learned in the project during the current 4-H year. Value is placed on youth who can demonstrate how their skills have increased while completing the project. Each exhibit will be judged on uniqueness, creativity, neatness, accuracy of material, knowledge gained, and content. An exhibit judging score sheet will be available at www.STEM4KS.com. For example, a rocket that may have crashed and/or is highly damaged may be made into an educational display or poster that tells a great story with many lessons learned.
5. Follow copyright laws, citing all sources of information in a standard notation. Sources of information must be cited on the front of your exhibit, including all posters and educational display boards.
6. Educational displays are not to exceed a standard commercial 3’x 4’ tri-fold display board. No card table exhibits will be allowed. Care should be taken to use durable materials that will withstand Fair conditions.
7. “Construction Kits” that are part of Educational displays must be contained in cases (tackle boxes, sealable containers, etc.) that may not be larger than 1’ X 2’ X 2’ and must have a latch which securely keeps all components contained in the “Construction Kits”. Other components are to adhere to appropriate dimensions as stated elsewhere.
8. Educational Project notebooks must be organized in a 3-ring binder.
9. Any three-dimensional display exhibits may not be thicker than 1”.
10. Engines and igniters for rockets ARE NOT permitted with the exhibit and constitute an immediate disqualification. This is for safety reasons and includes both spent and live engines.
11. Exhibitor’s name, county or district, age, and year(s) in project must be tagged or labeled in a prominent location on the notebook, and/or “Construction Kit.” For education displays and/or posters the exhibitor’s name, county, or district, age, and year(s) in project must be tagged or labeled on the back of the exhibit. Exhibit cards are not sufficient as they may be removed or repositioned for display.
12. Exhibits should possess the following qualities (in no particular order):
   a. A Central theme
   b. What you want others to learn
   c. Be designed and constructed in a manner befitting the exhibit
   d. Be something you are interested in
   e. Be related to Astronomy, Computer Systems, Robotics, Rocketry, or Unmanned Aerial Systems
   f. As well as those characteristics described above.
13. If the judges, superintendent, or other staff note a safety violation, the exhibitor’s exhibit, at the judge’s discretion, will receive a participation ribbon.

DEPARTMENT 28: VISUAL ARTS

1. Visual Arts has 5 divisions: Fine Arts, Clay and Ceramics, Leather and Jewelry, 3-Dimensional and General Crafts.

2. Articles exhibited must be an original design created by the exhibitor. Copyright Guidelines: Kits and performed molds are NOT considered original and are not acceptable in any Visual Arts Class. Combining parts of different patterns (pictures, photographs, images from the internet or a magazine) with the member’s own ideas can result in an original design, but simply changing the color, pattern, and/or size of a pattern does not make the design original. If you create a replica or what you see somewhere else (i.e. Pinterest), it is not your original design. If a photo, sketch, or other idea source was used, submit it with your entry, firmly attached to your exhibit.

3. All Visual Arts exhibits are evaluated using a visual arts rubric, which considers correct use of design elements, craftsmanship and creativity.

4. A member may exhibit a total of (3) three entries per class. There is no limit to the number of classes a 4-H’er may enter. Please limit the TOTAL items (all classes combined) to be judged by conference judging to (5) five items. Exception: Leather Classes have a limit of (5) five entries per class.

5. All exhibits which need to be hung (including ALL Fine Arts) MUST have a wire or saw tooth hanger attached (no string or tape). Matting and framing will not be considered when judging an article. Stretched canvas art on a wooden frame is considered prepared for hanging provided that frame has a hanger.

6. Multi-piece items should be marked accordingly.

7. No plants or plant materials requiring watering can be entered as an art display or item.

8. All exhibits must have an explanation of work done on the exhibit. 4-H’er should note whether this exhibit is an article made from a pattern, mold, etc. or is an original pattern. Arts and Crafts entry cards may be picked up at the Extension Office prior to the Fair.

9. Ford County can enter one entry in each division for judging at the State Fair. “State Fair Selected” exhibits will be selected by judges among all age groups.

10. 4-H’ers may enter special contest on Pages 83-84.

11. Classes will be divided in to Jr., Inter., and Sr. When completing pre-entry, 4-H class numbers must contain the class number and a letter if classes are not already specific to member’s age and exhibit judging is based by age group and the exhibit. Letters will be as follows:
    A. 4-H member age 7-9-year-olds
    B. 4-H member age 10-13-year-olds
    C. 4-H member age 14 and older

Example: Department 20: Foods – Class 2008A – Plain Cake (would be for member who is 4-H Age of 9 entering a Plain Cake.)

Step by step instruction sheets for how to pre-enter are available from the Extension Office’s website www.ford.ksu.edu.

1. Exhibitors will be limited to a total of three (3) different kinds of entries, all of which may be in the same class. Label each article with owner's name, address, club, name of article, class; include word "kit" after class number if the exhibit is made from a kit rather than original construction.

2. Exhibitors are required to submit plans with their exhibits. The plan may be a photocopy, the actual pattern, or a scale drawing. It must be complete and accurate to the extent that a duplicate article could be built using the plan as a guide. A project exhibited without plans will receive a lower ribbon. Please put your name on your plans. Please note: a set of step-by-step instructions is not a plan.

3. Any project that has glass that is not secured, i.e., glass shelves, glass top of a coffee table, etc., should not be brought to the fair. Glass that is secured in the project, i.e., glass front of a gun case cabinet, etc., is permissible since it cannot be removed from the project.

4. Entry card, plans, and all other paperwork should be secured to the project in some manner. Tape is usually not adequate to accomplish this. It is recommended to use a zip top plastic bag with a hole punched through it and using string to tie this to the exhibit.

5. In judging articles, consideration will be given to usefulness, design, workmanship, choice of wood, and suitability and quality of finish.

6. The use of materials other than wood should be kept to a minimum.

7. Firearms and weapons are not to be entered or displayed.

8. Repaired or refinished items not a state fair class unless enrolled in Home Environment.

9. Classes will be divided into Jr., Inter., and Sr. When completing pre-entry, 4-H class numbers must contain the class number and a letter if classes are not already specific to member’s age and exhibit judging is based by age group and the exhibit. Letters will be as follows:

A. 4-H member age 7-9-year-olds
B. 4-H member age 10-13-year-olds
C. 4-H member age 14 and older

Example: Department 20: Foods – Class 2008A – Plain Cake (would be for member who is 4-H Age of 9 entering a Plain Cake.)

Attach brief explanation of work completed.
The following rules are prescribed by the Ford County Fair Board for the operation of the Ford County Fair. The Board reserves the right to interpret these rules and regulations and arbitrarily settle all questions arising in connection with the fair.

1. Management is not responsible for accidents, fire, or theft of exhibits or injuries to persons. Exhibits shall be displayed at owner’s risk.

2. Exhibitor must be a Ford County resident or affiliated with a Ford County FCE or Extension Club as a member, to be eligible to exhibit in Open Class. Age will be determined by day of entry for open class youth. Adult Divisions are for exhibitors 19 years and older. Junior Divisions are for exhibitors 18 and younger who are not enrolled in 4-H or 4-H Cloverbuds with the exception that 4-H’ers may enter the special contests division. (See special contest rules for ages.) Juniors are requested to put actual Age on entry card.

3. No entry fee will be required.

4. No advanced registration is required. Entry cards may be picked up at the Extension Office after July 1. Entry forms may be filled out before you come to the fair. This will help speed up the check in procedure. Entry forms should be attached by safety pin, tape, or tied on the exhibit unless division rules state otherwise.

5. All exhibits must be made by the exhibitor. More than one entry per class per individual is permitted.

6. All exhibits must be made since August 1, 2019 (unless otherwise stated).

7. All exhibits must be checked in between 11:30 a.m. and 1:30 p.m. on Thursday, July 22, 2021. All exhibits are to be checked out between 7:00 p.m. - 10:00 p.m. on Monday evening, July 26 and/or between 8:00 a.m. and 9:00 a.m. on Tuesday, July 27, 2021.

8. Entries will be placed 1st, 2nd, and 3rd or receive a participation ribbon/sticker. If you do not wish to keep your ribbon, please feel free to return them at the time of exhibit check out or after the fair. Ribbons can be requested to replace a sticker. Premium money will be paid as follows: $3.00 - first, $2.00 - second, $1.00 - third. Premium money will be distributed at the time of checkout on Monday night and Tuesday morning.

9. $50.00, $30.00, and $20.00 will be awarded to the units/clubs having the largest number of exhibits per FCE unit or club member. (Courtesy of Ford County FCE Council.)

10. Classes may be subdivided pending on the number of entries at the superintendent and judge’s discretion.

11. Bicycles, scooters, roller blades, skateboards, or any type of roller shoes will not be allowed on the fairgrounds.
